SMOKE-STICK KIT 3

PACKAGE INFORMATION:

- 1 x Smoke Stick Pen.
- 3 x Smoke Stick Refills.

up to 30mins
per stick

FOR TESTING:

- Leakage.
- Air Flows.
- Drafts.
- Ventilation.
- Smoke Detectors.

DIRECTION OF USE:

- Remove black plastic cap from Pen top.
- Place one Smoke-Stick in Pen holder.
- Leave approx. 10 mm (1/3inch) outside top of Pen holder.
- Light top of Smoke-Stick and let it burn with open flame for 10-15 seconds. Blow out flame, Smoke-Stick will now release a stable and smooth smoke stream.
- To extinguish Smoke-Stick just place plastic cap on top of the Pen holder, Smoke-Stick will now extinguish almost immediately. At your next smoke test just feed out new required Smoke-Stick length and light it as described above.
- Can also be used with a Smoke-Plume holder.
